Yes, we are overdue. I think Mike is talking with Pat Perez today, so let me see what comes of that. I've not yet connected with RB, but hope to this week. Also, Ron sent out the long awaited draft of the Grevatt memo so look for that from me shortly.

Hi David,

I've checked my calendar and the last meeting we had with DOGGR was April 2 so we are kind of overdue for a meeting on their progress. I don't want to contact Jerry if it will interfere with your conversation with Clay, or yours or Mike's contact with the new DOGGR chief deputy or chief. So I think maybe the best thing is for you to tell me when you would like me to push for a meeting and I will do that.

BTW I was on lync for about a half hour this am then got bumped off and cannot get back on. I will not be calling IRM since I was told they will not trouble shoot. I will to get on again every once in a while during the day.

Well this is certainly a new wrinkle. I'll reach out to the RB to get more details in advance of our aquifer exemption discussion next week.

David,

Just wanted to forward this email and attached letter to you as it relates to recent discussions between our Bakersfield office and the Central Valley Regional Water Quality Control Board. Jerry Salera is out this week and will be back next week.

There was a meeting with D4 and the CVRWQCB to discuss aquifer exemptions and process and status in Kern Co. Attached is a letter from the Board re: their interest. There will be a meeting on May 9 at D4 office including the Board and operators with disposal at the Kern River and Kern Front fields to discuss aquifer exemptions and to move this forward. And follow-up coordination with D4 and the Board.

Thanks - Dan

Dan,

Attached is the letter we spoke about during our meeting. I'll send a hard copy in the mail.  
Thanks.
